SECTION 1

MISSISSIPPI TAX STRUCTURE

AD VALOREM
(27-35-1 to 27-35-29)

Value of real and personal property with rates fixed annually to meet local budget. Assessed at a ratio of fifteen percent (15%) of true value. The tax is payable to the county and municipal tax collector in January, except for the tax on motor vehicles which is payable when the tag is renewed. Warehouses located inside Mississippi that ship more than 50% of their merchandise outside this state may be authorized as a Freeport Warehouse which would allow them to pay tax only on the percent of merchandise on hand as of January 1 equal to the percent destined for shipment inside the state during the year. The Tax Commission issues the license, but the local taxing authority grants the exemption and assesses and collects the tax. Mobile homes must register and secure a sticker from the County Tax Assessor for $2. The Ad Valorem tax must be paid at any time within 90 days of registration and paid to the County Tax Collector.

Homestead Exemption
(27-33-3 to 27-33-43)

$7,500 assessed value of homestead exempt from certain county levies (average approximately one-half of taxes assessed). $7,500 assessed value of homestead of persons 65 years of age, or disabled are exempt from all county and municipal levies (all taxes).

[1] Population counts for congressional districts are based on 1970 census complete-count data; housing unit counts are based on 1970 census sample data. These counts may not add to State totals because of post-1970 census corrections which were not assigned by congressional district and also because of sampling variability for housing unit counts.

[1] The dropouts on this page represent the number of dropouts in a given year as a percent of the enrollment. Many of these children return to school the next year and possibly dropped out again the next year. Tables 4.8 and 4.9 should be studied to get the true picture of the number of pupils who start school in grade one and stay in school to graduate. Table 4.9 shows the number of fifth graders who remained in school and entered the twelfth grade seven years later.

[1] See Table 5.14, Footnote 1, for explanation of Code.

[2] Where data for and individual establishment or reporting unit would not be divulged, monthly employment is given for industry divisions and for two-digit and three-digit groups. Criteria for non-disclosure of individual employer data are as follows: In cases where there are fewer than three establishments or reporting units in an industry division or group and in cases where there are three or more establishments or reporting units and one of these contains 80 per cent or more of the employment of the division or group, employment and wages data are combined and shown with data for other divisions or groups. Such data are included in county totals.

[3] The data for these industries are included in the NDC classification Code that immediately follows the code numbers or the table with the corresponding first two-digits.

[2] Where data for an individual establishment or reporting unit would not be divulged, monthly employment and quarterly wages are given for industry divisions and for two-digit and three-digit groups. Criteria for non-disclosure of individual employer data are as follows: In cases where there are fewer than three establishments or reporting units and one of these contains 80 percent or more of the employment of the division or group, employment and wages data are combined and shown with data for other divisions or groups. Such data are included in county totals.

[3] The data for these industries are included in the NDC classification code that immediately follows the code numbers in the table with the corresponding first two digits.

[1] Vehicles of the civilian branches of the Federal Government are given in this table. Vehicles of the military services are not included.

[2] This information, compiled chiefly from reports of State Authorities is incomplete in many cases. Some States give State-owned vehicles only; others exclude from registration certain classes, such as fire apparatus, and police vehicles. For the States not reporting State, County, and Municipal vehicles separately from private and commercial vehicles and those reporting unsegregated totals only, classification by vehicle type has been approximated on the basis of other available data.

The number of courts reporting to the Department of Public Welfare affects the total children's cases and consequently the comparability from year to year of youth court statistics. Courts from only four counties (Bolivar, Hinds, Pike, and Warren) have reported one or more cases for each year from 1950 through 1972. The size of the courts not reporting also influences the total cases.

Because of many limitations the trend table does not show the extent of delinquency or neglect in this state and may be particularly misleading if only total number of cases is used to make comparisons between years.

[1] Commercial timberland is forest land which is producing or is capable of producing crops of industrial wood and not withdrawn from timber utilization by statute or administrative regulation. Areas qualifying as commercial timberland have the capability of producing in excess of 20 cubic feet per acre per year of industrial wood in natural stands. Currently inaccessible and inoperable areas are included.

[2] Includes Indian lands.

[3] Net volume of the saw log portion of live sawtimber trees in board feet, International ¼-inch log rule.

[4] Net volume in cubic feet of live sawtimber and poletimber trees from stump to a minimum 4-inch top (of central stem) outside bark or to the point where the central stem breaks into limbs.
